

## Equine NuBandage

An equine bandage that stands out among the rest and is the perfect solution for your horse

THE MOST ADVANCED SECUREMENT DEVICE PROVEN TO PROTECT, SUPPORT AND ASSIST IN THE ACCELERATION OF WOUND HEALING

### NU BANDAGE BENEFITS:

- ⇒ No Tape
- ⇒ No fasteners
- ⇒ No Velcro
- ⇒ No Buckles
- ⇒ No Brackets
- ⇒ No pressure points
- ⇒ No blood flow restrictions
- ⇒ No bruising
- ⇒ No Trauma

The vented veterinary bandage allows for more airflow and offers an excellent way to hold medical dressings in place during activities.

It replaces the need for elastic bandages that slide down with movement and the compression sleeve offers stability and joint support.

Best of all, it's washable!

# An innovative product from New Bandage Technology

One size fits all, unlike short stretch woven products, Nu BANDAGE is a long stretch non-woven, silky soft rubbery material that can expand up to 4x its original size and retracts and conforms on the body seamlessly.

Nu BANDAGE is made of FDA Approved Thermal Plastic Elastomers ( TPE ) Patent pending formula. Nu Bandage's unique material makes it easy to roll on and easy to roll off. Simply roll the bandage up to the desired area, then roll it down over the wound dressing.

Simply roll it up or down during dressing changes.

Nu BANDAGE comes in two sizes:

Vented/Solid Low Compression  
We can also supply Hi Compression dressings on demand

Short - 5cm x 13cm – (5cm around 13cm long)  
Long – 5cm x 25cm – (5cm around 25cm long)
